

Group 9 Heuristics:

Jacob Stevens:

Severity: 1

Heuristics violated: Aesthetic and minimalist design

Description: The overall color scheme for the site is a mixed bag. The blue and orange header doesn't mesh well with the softer colors of the content in the page.

Fix: The softer colors used in main content are easier on the eyes, suggestion to change overall site scheme to something like that.

Severity: 1

Heuristics violated: Aesthetic and minimalist design, Consistency and Standards

Description: The User Interface changes design and flow from the main page to subsequent pages. For example click on a song, It loses the "grey container div" and then clicking on a profile has a similar issue.

Fix: Create a consistent UI and color scheme/style that spans across all pages.

Kenny Sanders:

Issue: non-responsive menu items

Severity:1

Heuristics violated: Consistency and standards, Aesthetic and minimalist design

Description: menu items appear to be clickable

Fix: make them clickable so that you can order the items, or make them look less like hyperlinks

Issue: about and reviews tab look clickable, but they aren't

Severity:1

Heuristics violated: Consistency and standards, Aesthetic and minimalist design

Description: reviews and about tabs appear to be clickable

Fix: make them clickable so that you can go to about and reviews pages, or make them look less like hyperlinks

Aliyu Zakari:

Issue: Colors Consistency

Severity: 1

Heuristics violated: Consistency and standards

Description: The grey are of two different tones, and the blues are to Consistency

Fix: Bring them down by some pixels or have them placed horizontal middle.

Issue: Profile Page Background

Severity: 1

Heuristics violated: Consistency and standards

Description: The foreground is not completely over the background.

Fix: Fix foreground size.
